

Southampton

16th May 2016

On Monday 16th May when the sun was dazzling in the morning sky , Conifer Class boarded a coach to Southampton. We did lots of amazing things and went on some really long walks, but first we went on the Blue Funnel Ferry!!!

Luckily no one felt sea sick. We all loved it on the Funnel because we could see the whole of Southampton!!! We could even see D'vere Hotel. And Britannia—one of the biggest cruise ships in the world.

After a heavenly sail around Southampton we walked as a class to the park to eat our lunch.

Once we had finished our lunch we went in our groups When we were in our groups we nearly went

around

whole of Southampton. We looked in detail at the different styles of architecture and old city walls. It was really interesting to go inside some of the buildings, particularly old Sailors Church that had beautiful metalwork at the altar.

It was a beautiful day and really educational!
